

Fruit and vegetables without restrictions

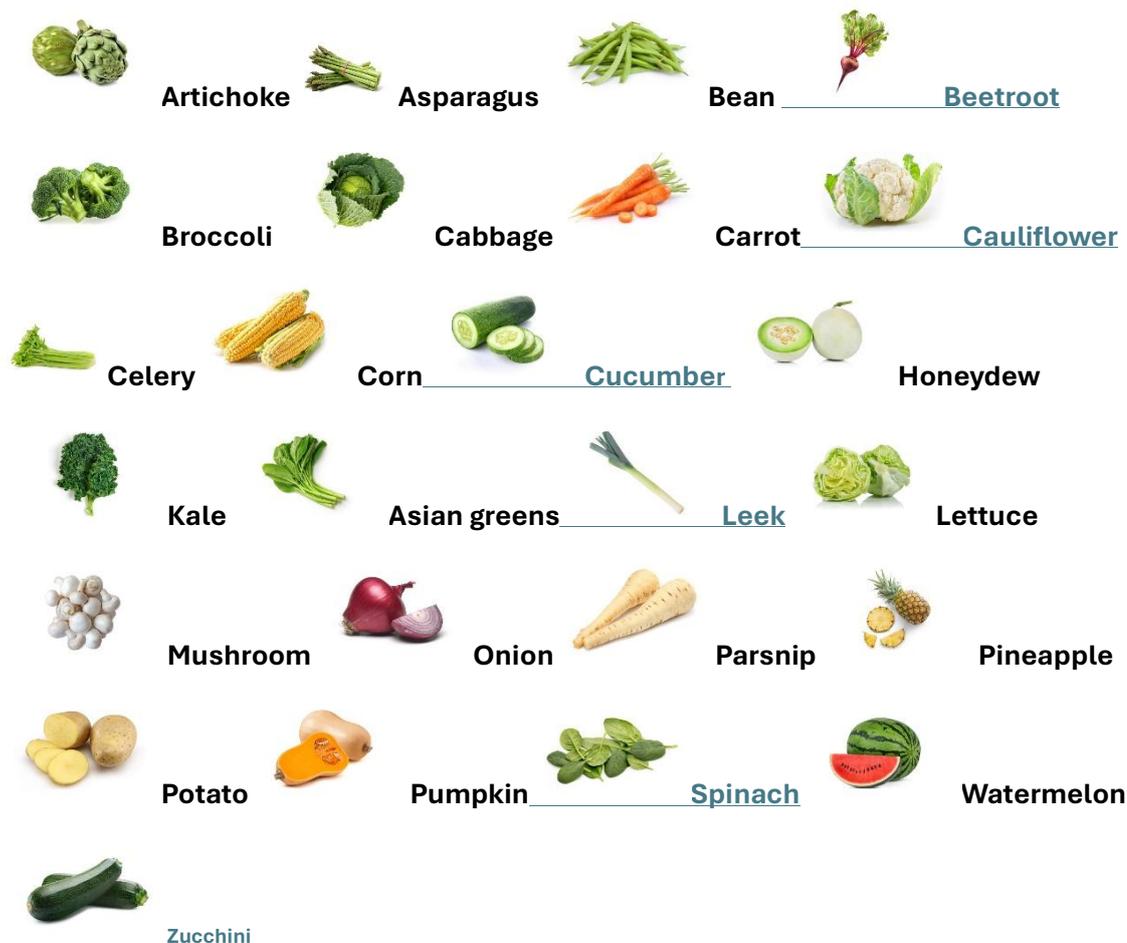

On this page

- [Common fruit and vegetables without restrictions](#)
- [Approved preparation of restricted fruit and vegetables](#)

The following fruit and vegetables are not restricted during a fruit fly outbreak. You can move these types of produce between outbreak areas and into the Riverland if travelling from within South Australia.

Find out about the different fruit and vegetable restrictions when [travelling into South Australia from interstate](#).

Common fruit and vegetables without restrictions

Approved preparation of restricted fruit and vegetables

All fruit and vegetables, including those restricted, can be prepared in certain ways so they can move between areas without spreading fruit fly:

- canned
- cooked
- dried
- frozen
- grated
- pureed or blended.
